PTP TACTICAL's Scout Model 19D and 19DM - MINI .22 caliber suppressors are designed and machined to last! The Scout features a completely shielded, heat treated stainless steel baffle stack & stainless steel inserted thread mount system, with an industry first self-tensioning wave washer system. This innovative design allows for easy cleaning and maintenance, which is crucial to the life of a suppressor. Every PTP Tactical suppressor comes with a special take down tool, warranty and registration card, maintenance and cleaning instructions, PTP Tactical patch and decal, and the Scout 19D comes with its own Battle Cloth Pouch.

LIMITED LIFETIME WARRANTY!

You won't find the superior quality in a suppressor anywhere else for this price!
